

To: Holders of the Middle River Aircraft Systems CF6 Fan Reverser Technical Manual Index

Attached to this letter of transmittal is the latest issue of the Middle River Aircraft Systems CF6 Fan Reverser Technical Manual Index, dated January 1, 2018. This index supersedes and replaces all previous CF6 Fan Reverser Technical Manual Indices.

This index is issued monthly.

The index consists of one section. All manuals are listed in ATA number order. The index is searchable if you are looking for a GEK/MR number.

The "REV. CYCLE" column in this index indicates the planned revision frequency for each publication listed according to the following key:

180 - Semi-annually (180 days)  
AR - As Required

The "REV. NO." column indicates the current revision number of the publication.

An asterisk (\*) indicates a document has been revised since the last issue of the Index.

Questions or comments about this index may be directed to [technical\\_support@mras-usa.com](mailto:technical_support@mras-usa.com). Updates to this index may be obtained by visiting <http://www.mras-usa.com> and clicking on the Customer Resources button.
